2. BASIS OF PRESENTATION

Statement of Compliance

These unaudited condensed interim consolidated financial statements ("interim financial statements") were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 Interim Financial Reporting. They do not include all the information required for full annual financial statements. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2022, which include information necessary for understanding the Company's business and financial presentation.

Other than as described below, the same accounting policies and methods of computation are followed in these interim financial statements as compared with the most recent annual financial statements.

On November 7, 2023, the Company's Board of Directors approved these interim financial statements for issuance.

Basis of Measurement

These interim financial statements have been prepared on a going concern basis under the historical cost basis, except for those assets and liabilities that are measured at fair value (Note 24) at the end of each reporting period.

Adoption of new accounting standards

The Company adopted various amendments to IFRSs, which were effective for accounting periods beginning on or after January 1, 2023. These include amendments to IAS 1 (Presentation of Financial Statements) and IFRS Practice Statement 2 (Making Materiality Judgements), IAS 8 (Definition of Accounting Estimates) and IAS 12 (Deferred tax related to assets and liabilities arising from a single transaction). The impacts of adoption were not significant to the Company's interim financial statements.

3. USE OF ESTIMATES, ASSUMPTIONS, AND JUDGEMENTS

The preparation of these financial statements requires management to make estimates and judgements that affect the reported amounts of assets and liabilities at the period end date and reported amounts of expenses during the reporting period. Such judgements and estimates are, by their nature, uncertain. Actual outcomes could differ from these estimates.

The impact of such judgements and estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. These judgements and estimates are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and are accounted for prospectively.

In preparing these interim financial statements for the three and nine months ended September 30, 2023, the Company applied the critical estimates, and judgements as disclosed in Note 4 of its audited consolidated financial statements for the year ended December 31, 2022.

4. TRADE AND OTHER RECEIVABLES

7. ACQUISITION OF CHESSER RESOURCES

On September 20, 2023, the Company acquired a portfolio of exploration projects in eastern Senegal, including the flagship Diambu Sud project, through the acquisition of Chesser Resources Limited ("Chesser").

The transaction did not qualify as a business combination under IFRS 3, Business Combinations, as significant inputs and processes that together constitute a business were not identified, given the early stage of exploration and evaluation of the projects acquired. The acquisition was therefore accounted for as an asset acquisition, and the purchase price was allocated to the assets acquired and liabilities assumed, based on their relative fair values at the date of acquisition. Acquisition costs were capitalized as part of the cost of assets acquired.

The cost of acquisition includes the fair value of the Fortuna shares issued to acquire Chesser, based on the issuance of 15,545,368 new Fortuna shares at \$2.93 per share, the Fortuna acquisition costs related to the acquisition, and the settlement of taxes related to the transaction. These taxes relate to the capital gain on the indirect disposition of the exploration projects in Senegal, and related registration fees.

The Company advanced interest-bearing loans of 3,350,000 Australian dollars (\$2,188,375) to Chesser in advance of closing of the transaction. The loans, and related interest, were effectively settled upon closing of the transaction.

The consideration and allocation of purchase price to assets acquired and liabilities assumed are as follows:

Consideration transferred	
Shares issued	\$ 45,548
Acquisition costs	1,858

Following the first gold pour on May 24th, 2023, and the subsequent ramp-up of operations, the Seguela project was evaluated to determine if it was ready for its intended use. Determining when a mine under construction is substantially complete and ready for its intended use involves significant judgement. Some of the criteria used to make the determination for the Séguéla mine included:

- Completion of all major capital expenditures to prepare the mine for steady state operations.
- The mine and plant achieving a predetermined percentage of design capacity.
- Metallurgical recoveries aligning with expectations.
- Ability to sustain ongoing metal production.
- Availability and utilization of key infrastructure aligned with the intended design.

No single factor was more important than any other factor. Management considered these factors collectively and determined that commercial production was achieved, and assets were ready for their intended use on July 1, 2023, for the open pit mine and August 1, 2023, for the processing plant and supporting infrastructure. Upon reaching commercial production, the related assets started depreciating, and the Company stopped capitalizing interest expenses associated with the project on July 1, 2023.

During the three months and nine months ended September 30, 2023, the Company capitalized \$nil and \$6.5 million, respectively, of interest related to the construction of the Séguéla mine (year ended December 31, 2022 - \$3.3 million).

As at September 30, 2023, non-depletable mineral properties include \$29.7 million of exploration and evaluation assets (December 31, 2022 - \$26.4 million).

During the nine months ended September 30, 2023, mining equipment arrived at site and was placed into use at the Séguéla mine as part of a mining services contract. As a result, the Company recognized right of use assets with a cost of \$35.8 million.

As at September 30, 2023, property, plant and equipment includes right-of-use assets with a net book value of \$54.0 million (December 31, 2022 - \$21.5 million). Related depletion and depreciation for the three and nine months ended September 30, 2023, was \$5.6 million and \$10.4 million, respectively (year ended December 31, 2022 - \$9.5 million).

(d) Tax Contingencies

The Company is, from time to time, involved in various tax assessments arising in the ordinary course of business. The Company cannot reasonably predict the likelihood or outcome of these actions. The Company has recognized tax provisions with respect to current assessments received from the tax authorities in the various jurisdictions in which the Company operates, and from any uncertain tax positions identified. For those amounts recognized related to current tax assessments received, the provision is based on management's best estimate of the outcome of those assessments, based on the validity of the issues in the assessment, management's support for their position, and the expectation with respect to any negotiations to settle the assessment. Management re-evaluates the outstanding tax assessments regularly to update their estimates related to the outcome for those assessments taking into account the criteria above.

Peru

The Company was assessed \$1.1 million (4.3 million Peruvian soles), including interest and penalties of \$0.8 million (2.9 million Peruvian soles), for the 2010 tax year by SUNAT, the Peruvian tax authority, with respect to the deduction of certain losses arising from derivative instruments. The Company believes the assessment is inconsistent with Peruvian tax law and that it is probable the Company will succeed on appeal through the Peruvian legal system. The Company has paid the disputed amount in full and has initiated proceedings through the Peruvian legal system to appeal the decision of the Peruvian tax court.

As at September 30, 2023, the Company has recorded the amount paid of \$1.1 million (4.3 million Peruvian soles) in other long-term assets, as the Company believes it is probable that the appeal will be successful (Note 9).

On August 16, 2022, the Argentine Tax Authority ("AFIP") published General Resolution No.5248/2022 (the "Resolution") which established a one-time "windfall income tax prepayment" for companies that have obtained extraordinary income derived from the general increase in international prices. The Resolution was published by AFIP without prior notice.

The windfall income tax prepayment applies to companies that meet certain income tax or net income tax (before the deduction of accumulated tax losses) thresholds for 2021 or 2022. The aggregate amount of the windfall income tax prepayment payable by Mansfield calculated in accordance with the Resolution is approximately \$2.3 million (810 million Argentine Pesos), excluding related accrued interest of approximately \$0.8 million (277 million Argentine Pesos).

The windfall income tax prepayment was to be paid in three equal and consecutive monthly instalments, starting on October 22, 2022, and was payable in addition to income tax instalments currently being paid by corporate taxpayers

on account of their income tax obligations. The windfall income tax prepayment is an advance payment of income taxes which were due to be paid in 2022.

Based on the historical accumulated losses of Mansfield for fiscal 2021, which can be carried forward for 2022, Mansfield was not liable for income tax, and based upon current corporate income tax laws and the ability of the Company to deduct historical accumulated losses, income tax will not be required to be paid for fiscal 2022.

To protect Mansfield's position from having to pay the windfall income tax prepayment as an advance income tax for 2022, which based on management's projections is not payable, Mansfield applied to the Federal Court of Salta Province for a preliminary injunction to prevent the AFIP from issuing a demand or other similar measure for the collection of the windfall income tax prepayment. On October 3, 2022, Mansfield was notified that the Court had granted the preliminary injunction. As a result, Mansfield did not pay any of the three instalments due in 2022.

Mansfield also filed an administrative claim with the AFIP to challenge the constitutionality of the Resolution, which was rejected by AFIP on November 2, 2022. Mansfield has challenged the rejection of its administrative claim, by filing legal proceedings against the AFIP with the Federal Court. On February 15, 2023, the Federal Court granted Mansfield a preliminary injunction in these legal proceedings. Mansfield has subsequently presented additional documentation to AFIP which has resulted in the windfall tax prepayment installments being eliminated from Mansfield's account in AFIP's system. The legal proceedings to determine the unconstitutionality of the Resolution and whether interest is payable to AFIP continue under the protection of a preliminary injunction.
