Fortuna completes transaction to purchase 100% of the Taviche Oeste Concession

Vancouver, June 19, 2013-- Fortuna Silver Mines Inc. (NYSE: FSM | TSX: FVI | BVL: FVI | Frankfurt: F4S.F) is pleased to announce that the company has made the final US\$6.0 million option payment to purchase the remaining 45% interest in the Taviche Oeste Concession. Fortuna now holds a 100% undivided interest in the Taviche Oeste concession which contains the Trinidad North discovery. The company will continue to advance exploration efforts on the high-grade silver-gold Trinidad North discovery which remains open to the north and to depth.

Commenting on the acquisition, Jorge A. Ganoza, President and CEO, said, “Given the exciting exploration success at Trinidad North, the company believes it is prudent to control 100% interest as we work to put this new high-grade silver-gold mineralized area into production by early 2015.” Mr. Ganoza continued, “We expect to announce an initial resource estimation for Trinidad North during the fourth quarter of 2013.”

Fortuna Silver Mines Inc.

Forward-Looking Statements

This news release contains forward-looking statements which constitute “forward-looking information” within the meaning of applicable Canadian securities legislation and “forward-looking statements” within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that are not historical facts and that are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements. When used in this document, the words such as “anticipates”, “believes”, “plans”, “estimates”, “expects”, “forecasts”, “targets”, “intends”, “advance”, “projects”, “calculates” and similar expressions are forward-looking statements.

The forward-looking statements are based on an assumed set of economic conditions and courses of actions, including estimates of future production levels, expectations regarding mine production costs, expected trends in mineral prices and statements that describe Fortuna’s future plans, objectives or goals. There is a significant risk that actual results will vary, perhaps materially, from results projected depending on such factors as changes in general economic conditions and financial markets, changes in prices for silver and other metals, technological and operational hazards in Fortuna’s mining and mine development activities, risks inherent in mineral exploration, uncertainties inherent in the estimation of mineral reserves, mineral resources, and metal recoveries, the timing and availability of financing, governmental and other approvals, political unrest or instability in countries where Fortuna is active, labor relations and other risk factors.

Although Fortuna has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or information, there may be other factors that cause results to be materially different from those anticipated, described, estimated, assessed or intended. There can be no assurance that any forward-looking statements or information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements or information. Accordingly, readers should not place undue reliance on forward-looking statements or information.
